

Sorry, I was
just asleep.
I was for the
breakfast?

I just had to draw this after reading the super cute second volume. These two are the cutest! My heart can't take it any more.

I wish I could be Seneel, because I want Otome...!

Although Seneel is also really cute... Ahh, but I really want to be together with Otome!

I can't take it anymore.

Their tag on the fourth volume shows the best look so cute the cute.
